 **emeraldinsight**

Emerald's Management collection features over 80,000 articles from over 200 titles. The collection continues to disseminate the latest thinking with authors from 95 of the Financial Times Top 100 business schools and forms an essential part of the research library at most of these institutions. Many of the titles are indexed by Thomson Reuters (ISI) and Scopus and content is selected for original contribution to research and practical relevance to topical trends.
